Tools Used:

- VsCode, Beyond Compare to compare files
- Node package manager, Composer Package Manager.
- HediSql for Database., Git Version Control, .bat Scripting

Project Details:

Unico Project (Jan 2022 - Nov 2023)

Stack used : HTML, BOOTSTRAP, ANGULAR, LARAVEL , MYSQL, GIT, REST API.

Difficulty Level: High complexity due to managing diverse modules, aligning stakeholder needs, and ensuring security in a sole developer role.

Overcoming Challenges: Overcame complexity by meticulously translating stakeholder requirements, leveraging Angular and Laravel's capabilities, and continuous collaboration with stakeholders for seamless integration.

Impact on Project: Independence in development and management significantly contributed to the project's success, ensuring a comprehensive, user-centric application with optimized performance and security.

Roles & Responsibilities:

- Independently developed and managed a comprehensive Resident Data Management Application System, crafting diverse modules including Administrator, Dashboard, Inventory, and more, employing Angular for front-end and Laravel for back-end development.

Saloon Trendy Ecommerce (Jan 2023 - Nov 2023)

Stack used : HTML, CSS, BOOTSTRAP, JQURY, AJAX, LARAVEL , MYSQL, GIT, REST API.

Difficulty Level: Moderate complexity in architecting backend systems for multi-user roles and seamless customer experiences.

Overcoming Challenges: Successfully managed complexity by crafting a well-structured backend, ensuring distinct user roles' functionalities, and optimizing frontend experiences.

Impact on Project: Efforts led to an efficient ecommerce platform with empowered user roles, enhanced product management, and streamlined customer interactions.

Asset Management (Oct 2021 - Nov 2021)

Stack used : HTML, CSS, BOOTSTRAP, JQURY, AJAX, LARAVEL , MYSQL, GIT, REST API.

Difficulty Level: Moderate complexity working within a team of four developers on asset management utilizing Laravel and Angular.

Overcoming Challenges: Collaborative efforts within the team ensured effective use of technologies, meeting project milestones efficiently.

Impact on Project: Collective contribution facilitated the completion of the Asset Management project within the stipulated timeline, utilizing Laravel and Angular effectively.

Educational Details:

❖ B.E(ECE) from Ck College of Engineering and Technologies , Cuddalore with 7.6 CGPA.
❖ HSSC from Vidhya Vikkas Hr Sec School with 64%.
❖ SSC from St.Paul's Mat Hr Sec School with 83%.

Declaration:

I hereby declare that all the information mentioned above is true are true the best of my knowledge and belief.
